# Apollo Modular System

## FUNCTIONAL + SUSTAINABLE STORAGE

Elevate your space with the handcrafted hardwood wall storage unit, the Apollo Modular System.

With a wide range of solid hardwood and iron components, the Apollo provides storage and display solutions which can be used for office, retail and residential applications.

Custom build your own or choose one of our suggested combinations. The unit is installed by anchoring vertical iron posts to the wall.

## WOOD SPECIES + FINISH OPTIONS

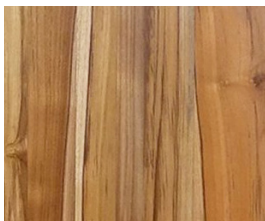

The Apollo's components are all handmade from sustainably sourced Teak wood, with either a natural or tinted finish. The verticals come in iron with a clear powder coated finish.

Custom finishes and additional hardwood options are available for special order.
